All competitors are invited to the Island Sailing Club at 1800 on Friday 20th June, the night before the race, for the essential Raymarine Weather Briefing. Competitors will be able to hear the latest weather and tidal information live, combined with expert tactical advice from professional meteorologist and Met Office-trained, Chris Tibbs. In addition to this, competitors will be able to evaluate the weather prior to the race by viewing the course overview and tidal strategy video here: [www.raymarine.co.uk/view/?id=7418](http://www.raymarine.co.uk/view/?id=7418).

### Photo gallery

Our online photo gallery allows anyone to share their pictures of the race with fellow competitors and sailing fans around the world. Last year thousands of images were uploaded to the gallery by people taking part, and many wonderful shots were featured on our gallery home page.

If you'd like to share your pictures of the 2014 race, you'll just need to select your favourite images and visit the official website to upload them to the gallery. Once they've been approved by the ISC, your pictures will be available for everyone to see - and because each image will be tagged with the name of the boat featured, you'll also be able to see who has captured pictures of your own race around the Island. Don't forget your cameras on race day!
